

Crypto Launch Sniper: Catch New Tokens Early & Profit

Time to apply: ~15 minutes

Target audience: Fast-moving degen traders & crypto hunters

Theme: Pre-launch sniping, token discovery, low-cap flipping

Asset ID: 009

1. What Is a Launch Sniper?

A **crypto launch sniper** is a trader or tool that identifies and enters **new token launches** early — often within minutes or seconds of launch.

You're not buying coins on Binance.

You're catching them:

- **On DEXes** (like Uniswap/PancakeSwap)
- **Before listings**
- **From stealth Telegram announcements**
- **On launchpads** (PinkSale, DXSale, etc.)

Goal: Buy early, sell before hype dies. High risk — high potential reward.

2. Tools to Find Fresh Launches

Here are 3 sniper-grade tools to find early tokens:

DexTools Live New Pairs

→ dextools.io/app

Shows token listings in real-time with volume.

PinkSale Explorer

→ pinksale.finance

Discover upcoming token launches & presales.

TokenSniffer

→ tokensniffer.com

Sniff for scam potential and smart contract risks.

Add these to bookmarks. Check them daily.

3. Telegram Channels That Drop Hidden Gems

@CryptoGemHunters – low-cap calls & stealth alerts

@LaunchSniperBot – DEX monitoring bot with launch alerts

@PresalePulse – early-stage presale notifications

Pro Tip: Turn on notifications. Fast reaction = edge.

4. How to Analyze a New Token in Under 2 Minutes

When you spot a new pair:

1. **Check Liquidity Lock**

→ Use mudra.website/tools or DexTools

2. **Read Contract & Ownership**

→ TokenSniffer & bscscan.com (for BSC tokens)

3. **Scan for Red Flags:**

No liquidity lock

Honeypot

Suspicious contract

Telegram full of bots

If anything feels off: **skip it**. You'll get more chances.

5. How to Snipe a Token Step-by-Step

Only risk what you're willing to lose. These moves are volatile.

Steps:

1. Open the pair on DEX (Uniswap, PancakeSwap)

2. Set slippage to 8–15%

3. Use small amounts (\$20–\$100)

4. Set TP levels: 2x, 5x, 10x

5. Monitor chart → pull out when volume drops

Bonus: Use **multi-wallets** to spread risk and stay nimble.

6. Monetize Your Sniper Journey

Don't just trade — **teach & earn**:
